

STATEMENT FOR CUSTOMERS OF BOCHEMIE A.S.

Bochemie a.s. hereby informs its customers that products in the **Bochemit** product line and other chemical products placed on the market by Bochemie a.s. are not subject to the treatment of selected end-of-life products under **Act No. 542/2020 Sb. (Collection of Laws), on End-of-Life Products**. Neither the take-back system nor extended manufacturer responsibility applies to these products.

After the product is used, waste is generated; **the waste generator is the person** whose activities resulted in the production of the waste, as defined in Section 5 of Act No. 541/2020 Sb. (Collection of Laws), on Waste. The waste generator is obligated to ensure that the waste is disposed of in accordance with the requirements of applicable laws and regulations, including but not limited to the obligations set forth in Sections 13 and 15 of the Waste Act.

Containers from chemical products that contain residues of hazardous substances or are contaminated with such substances may be classified as hazardous waste, specifically under catalog number **15 01 10* – Containers containing residues of hazardous substances or contaminated with such substances**.

The waste generator is required to transfer the waste only to:

- the operator of a facility designated for the disposal of that type and category of waste,
- a waste dealer authorized to dispose of that type and category of waste, or
- another person/entity, if so provided by law or other applicable regulation.

Legal entities and self-employed individuals are required to dispose of waste generated in the course of their activities outside the municipal waste management system, unless they are participating in that system under a contract with the municipality pursuant to Section 59 of Act No. 541/2020 Sb. (Collection of Laws), on Waste.

Bochemie a.s. provides **safety data sheets** for its products that contain information on the safe use of the products, their storage, and recommended procedures for disposing of product residues and their packaging. When disposing of waste generated by the use of Bochemie a.s. products, it is essential to follow the information provided in the relevant safety data sheet and comply with the requirements of applicable laws and regulations.

All costs associated with the disposal of waste generated by the use of products manufactured by Bochemie a.s. shall be borne by the waste generator.

Bochemie a.s.
